COUNTRY Germany (Soviet Zone)

SUBJECT Funkwerk Radeberg Production of Radio Senders

DATE DISTR. 26 Apr 54
25X1

NO. OF PAGES 2

NO. OF ENCLS.

SUPP. TO
REPORT NO. 25X1

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES, WITHIN THE MEANING OF TITLE 18, SECTIONS 793 AND 794, OF THE U.S. CODE, AS AMENDED. ITS TRANSMISSION OR REVELATION OF ITS CONTENTS TO OR RECEIPT BY AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. THE REPRODUCTION OF THIS REPORT IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. Two 10 Kw short wave senders have been finished and delivered to the Soviet Union. The condensers and coils are all of material resistant to tropical climates. The manufacture of eight more senders of the same kind is planned, also for the Soviet Union.
2. Three 20 watt senders and an 80 watt sender were manufactured for the Volkspolizei. Seventeen Stuttgart apparatus were manufactured in January 1954.
3. Preparations are being made for the manufacture of centimeter wave range finding equipment.
4. Production has commenced of television sets with a 14 inch or 12 inch tube. The sets were to have put on the market at 900 marks, but because this required a state subsidy of 150 marks per set, the price has been raised to 1,100 marks. The sets will be supplied only to clubhouses and national establishments. Delivery commitments to Czechoslovakia and the Soviet Union have to be met first of all however.
5. The electric motor department of the works has come almost completely to a standstill on account of material shortages, and it has been decided to transfer electric motor construction to the Niedersiedlitz works. Radeberg will make only high speed motors up to 180 watt power.

6. Thirty-eight power units for sea emergency senders have been manufactured for the Funkwerk Köpenick. Orders for 12 more power units and 4 control modulators for short wave senders are on hand for the month of March.
7. Twenty-one ultra short wave telephone sets have been delivered to the Soviet Union. Three radio-telephone sets for installation in automobiles have been supplied to the Berlin Volkspolizei. Six ultra short wave sets were manufactured in January 1954 for the military Volkspolizei. They are still at the plant.
8. The Niedersiedlitz works must deliver seven roller bed engines (Rollgangmotoren) to China by 14 Apr 54.
